Does what it says.. It's the best game.. Get it. Definately recommended

. Spectacular game, though were lots of bugs when released. Highly recommended!. I have put in over an hour trying to master the controls, but they are impossible.

It feels like this was developed as a sit down game and not room scale. You instinctively turn to line up with the ball and not only does it not register this, but you are now not facing the \u2018forward\u2019 arrow, so all goes to pot.

I can\u2019t bring myself to join an online game as I am struggling to dribble the ball from the centre circle to the goal and shoot with no other players on the pitch. I feel it would be too embarrassing.

This was such a huge disappointment as I was so looking forward to a game like this.

Needless to say I have requested a refund.. it was a flash game from newgrounds or whatever. pass. Worst game ive ever bought lol, Farming simulator but 100 times worse haha!

. This game is awesome wood totally sugest buying it and its got a fun idea!!. I'm a 138 hours into this game, and I have had it a little over a week. I do not have a lot of free time, but I find that when I do, I come back to this game over and over. The writting for the most part is well done. If you are looking for a good story, then you have found the game for you. Keep a box of tissues handy.

why the hell have i got to validate 97 files every time when i start the game its a hit and miss game

. Ian's Eyes is a single player indie, survival horror puzzle game with a unique style to the rest! You play as Ian, a blind kid who is starting a new school, with his trustworthy guard dog North. So you wanna know more? Well Let's Take A Look At Ian's Eyes.

<https://youtu.be/vVAOICuKWPjs>. Sad ,that there are no achievements in steam. But otherwise good game.. Embarrassing. This should not be available on Steam.. This game is awful.

[Honestly, it is one of the most luck based games I seen in my life, the idea of playing this in ironman mode is unthinkable, any encounter, and I mean ANY ENCOUNTER can be deadly for the first 10 hours you play it, not to mention the absurd low amount of time you have to do the missions, even after you complete it, if you don't return to the city in time the mission fails and you loose reputation, and it's not a little, if you fail a SINGLE mission because of the ridiculous low amount of time you have to do them, you loose the equivalent of 5-6 successful missions, so if you fail one single mission due to RNG you just wasted 2-3 hours of gameplay.](#)

[But wait, you did kill the raiders? yes, but that does not matter, I was 5 minutes too late.](#)

[And how do you get better gear? only unlockable by gaining reputation.](#)

[Armor in the game is borderline useless, it's practically a consumable on the melee character, it breaks in 1-2 hits.](#)

[You also can't hire other mercenaries until your renown is high enough, but to get renown you need to do missions that are completely RNG.](#)

[Combat is also determined almost always by who is lucky enough to land the first hit, even if you move your units in a way that you will be the one to deal the first hit, if you miss, it's usually game-over.](#)

[I do not recommend this game AT ALL. I love this genre, but this game is absurdly poorly balanced. I'm really into strategy and management games. Not this one and would not recommend it either. The whole game is looking at a computer screen and changing a budget by steps of 10%. This to maintain "good relations" with your subjects. The whole system how this is calculated and displayed to you is tedious and boring. Game is sprinkled with cutaway scenes which do not allow any involvement in your part other than "skip with any key". Miles away and behind from Papers Please. Save your money and don't buy.. On the vault he called Cybertronic](#)

[Here he called Cybersonic. Had promise but was barely functional, they took the money and ran to their next scam.](#)
